CFA Cycle Options

1) ==CFA form using Google== ([link to form](#)) or find the template started in your team CFA folder from the PLC page.

2) Download and print a ==hard copy of the CFA form==. Complete the process and then scan it to your team folder.

3) If you have ==another process that is working for your team that includes:==
   - ❏ What do we want students to learn?
   - ❏ How do we know if students know it?
     - ❏ Chart student data
   - ❏ What can we do for our students who already know it?
   - ❏ What can we do for our students who don't know it yet?
   - ❏ Record any reflections you want to remember for the next time you teach this standard or unit.

   Then check with your principal and upload the information to your team folder.
